PROFESSIONAL SUMMARY

Java Backend Developer with 2.7 years of experience building backend applications and RESTful services using **Core Java**, **Spring Boot**, **Spring Data JPA**, **Hibernate**, and **microservices**. Skilled in SQL, relational and analytical databases, API integration, and backend troubleshooting. Improved query performance by **approximately 10%** through SQL analysis and indexing, and contributed to application development across Agile SDLC. **AWS Certified Cloud Practitioner** with a strong foundation in OOP, clean code, and maintainable backend services.

EXPERIENCE

Tech Mahindra — Dec 2023 – Jul 2026
Associate Software Engineer — Project: TDW, Semiconductor Data Management System — Bengaluru, IN

- Developed and maintained **backend services** using **Java** and **Spring Boot**, implementing request validation, exception handling, and business logic for application workflows.
- Optimized data access using **Spring Data JPA** and **Hibernate ORM**, applying **SQL joins** and **indexing** to improve query performance by **approximately 10%**.
- Applied **Core Java**, **OOP**, **collections**, and **multithreading** concepts to build modular backend components and support reliable application processing.
- Improved code quality through **code reviews**, clean coding practices, **unit and integration testing**, and troubleshooting of backend and API issues.
- Used **Git** for source control and **Maven** for build management, and worked with **Jenkins CI/CD** and **Agile** practices to support team collaboration and release stability.

PROJECTS

Microservices Quiz Application
Java, Spring Cloud Gateway, Eureka, FeignClient

- Built a **Java microservices** application with an **API Gateway** routing requests to Question and Quiz services through **Eureka service discovery** and **Spring Cloud Gateway**.
- Implemented inter-service **REST** communication using **FeignClient** and **load balancing**, and configured **Eureka Server** for dynamic service registration instead of hardcoded service URLs.

CERTIFICATES / ACHIEVEMENTS

- **AWS Certified Cloud Practitioner** — Amazon Web Services (2026).
- Automated API regression checks for **125 APIs**, reducing regression testing time by **approximately 60%**.
- Improved database query performance by **approximately 10%** through **SQL analysis** and **indexing**.

TECHNICAL SKILLS

Programming & Core: Java, Core Java, J2EE, OOP, Collections, Exception Handling, Multithreading, Java 8 Streams, SQL, Data Structures & Algorithms, SOLID Principles

Spring & Backend: Spring Boot, Spring MVC, Spring Data JPA, Spring JDBC, Hibernate ORM, REST APIs, Microservices, Spring Cloud

Messaging & Integration: Apache Kafka, FeignClient, WebClient, Event-Driven Architecture

Databases: MySQL, MariaDB, Oracle SQL, ClickHouse, SQL Joins, Indexing, Query Optimization

Web Technologies: RESTful Web Services, XML, JSP and Servlet fundamentals, React.js, JavaScript, HTML, CSS

DevOps & Tools: Maven, Docker, Jenkins, Git, GitHub, GitLab, Postman, JMeter, AWS Cloud Practitioner

Practices: Agile/Scrum, SDLC, CI/CD, Clean Code, Code Reviews, Unit and Integration Testing, Debugging, Technical Documentation.

EDUCATION

Sree Vidyanikethan Engineering College — Graduated 2023
B.Tech — Electronics & Communication Engineering; CGPA/Percentage: 87.07%
