PROFESSIONAL SUMMARY

Java Backend Developer with 2.7 years of experience at Tech Mahindra developing and maintaining backend applications and RESTful services. Proficient in **Java 17**, **Spring Boot**, **Spring Data JPA**, **Hibernate**, **SQL**, and **microservices fundamentals**. Experienced in database query optimization, indexing, API integration, and backend troubleshooting. Demonstrated improvements in database query performance and API regression testing efficiency**. AWS Certified Cloud Practitioner** with a strong foundation in object-oriented programming, clean code, and Agile software development.

EXPERIENCE

Tech Mahindra Dec 2023 – Jul 2026

Associate Software Engineer — Project: TDW, Semiconductor Data Management System Bengaluru, IN

- Developed and maintained **backend services** using **Java** and **Spring Boot**, implementing business logic, request validation, exception handling, and application workflows.
- Optimized database access using **Spring Data JPA** and **Hibernate**, applying **SQL joins**, **indexing**, and query analysis to improve database query performance by **approximately 10%.**
- Worked with **MariaDB** and **ClickHouse** to support data processing workflows, ETL-related operations, and database troubleshooting.
- Applied **Core Java**, **object-oriented programming**, **collections**, and **multithreading** concepts to develop modular and maintainable **backend components**.
- Investigated backend **defects** and **API issues**, contributing to **debugging**, **code reviews**, and unit and integration testing to improve application reliability.
- Used **Git** for version control and **Maven** for build management, and collaborated through **Jenkins CI/CD** workflows and **Agile** development practices.

PROJECTS

Microservices Quiz Application

Java, Spring Boot, Spring Cloud Gateway, Eureka, FeignClient

- Developed a Java-based microservices application comprising Question and Quiz services, with **Spring Cloud Gateway** managing API routing.
- Implemented service discovery and dynamic service registration using **Netflix Eureka**, reducing reliance on hardcoded service URLs.
- Integrated inter-service REST communication using **FeignClient** and configured load balancing to support communication between microservices.

CERTIFICATES / ACHIEVEMENTS

- **AWS Certified Cloud Practitioner** — Amazon Web Services (2026).

TECHNICAL SKILLS

Programming Languages: Java 17, Core Java, SQL, Java 8 Streams

Java Fundamentals: Object-Oriented Programming (OOP), Collections Framework, Exception Handling, Multithreading, Data Structures and Algorithms, SOLID Principles

Backend Technologies: Spring Boot, Spring MVC, Spring Data JPA, Spring JDBC, Hibernate ORM, RESTful Web Services, Microservices Architecture, Monolithic, API Validation, Exception Handling

Microservices & Integration: Spring Cloud Gateway, Eureka, FeignClient, WebClient, Inter-Service REST Communication

Databases: MariaDB, ClickHouse, MySQL, Oracle SQL, SQL Joins, Indexing, Query Optimization

Tools & DevOps: Git, GitHub, Maven, Jenkins CI/CD, Postman, JUnit 5, Mockito, Spring Boot Test, MockMvc, JMeter, Docker (exposure), Apache Kafka (exposure)

Software Engineering Practices: Agile/Scrum, SDLC, Unit Testing, Integration Testing, Code Reviews, Debugging, Clean Code, Technical Documentation

EDUCATION

Sree Vidyanikethan Engineering College Graduated 2023

B.Tech — Electronics & Communication Engineering | Percentage: 87.07%
